Typesetting & layout by Tham Sin Chee.

ISBN 978-981-05-7949-4

About the publishers
IRRI's mission is to reduce poverty and hunger, improve the health of rice farmers and consumers, and ensure environmental sustainability through collaborative research, partnerships, and the strengthening of national agricultural research and extension systems.

IPNI's mission is to help define the basis for appropriate use and management of plant nutrients, especially focusing on the environmental and economic issues related to their use and to provide comprehensive and regional information and research results to help farmers, and the industry, deal with environmental and agronomic problems.

IPI’s mission is to develop and promote balanced fertilization for the production of higher yields and more nutritious food, together with ensuring sustainability of production through conservation of soil fertility for future generations.
